

## High pressure air duster

### PRODUCT DESCRIPTION

**ABduster** dries and removes dust. It is an extremely flammable liquefied gas in aerosol form, used for dusting all computer and office equipment. Completely dry, it does not damage metals.

Can only be used when the equipment is not powered on.

It is designed for use in the fields of IT, optics, photography, video, and office equipment (printers, keyboards, etc.). NOTE: this aerosol is for professional use only.

### FEATURES

- Non-abrasive
- Leaves no residue

### USE AND APPLICATION

Press the diffuser briefly and spray as needed. Its extension tube allows it to reach hard-to-reach areas.

NEVER SHAKE THE AEROSOL DURING USE.

NEVER USE THE AEROSOL WITH THE NOZZLE POINTING DOWNWARDS AS IT WILL THEN BECOME A POWERFUL COOLER (risk of cold burns) if this reaction is not desired.

Do not spray near live electrical equipment. Can only be used when the equipment is not powered up. Wait 5 minutes before turning the equipment back on.

### RECOMMENDATIONS

Pressurized container: may burst if heated. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames, and other sources of ignition. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe aerosols. Store in a well-ventilated place. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Do not use for any purpose other than that for which the product is intended.

### PACKAGING

500ml Aerosol

### ORDER CODE

ABduster  
(box by 12)

ABduster is compliance with REACH and RoHS regulations. If you want a certificate, please contact us ([info@abchimie.com](mailto:info@abchimie.com)). Please refer to the separate Health & Safety Data Sheet for further details.

## **STORAGE AND DATE OF USE:**

**Storage temperature:** 5 to 30°C

A temporary lower or higher temperature during few days (transport) doesn't distort varnish properties.

**Date by use:** 18 months after the date of manufacturing.
