

TECHNICAL DATA SHEET

NPP

Sept 2025

Powerful multi-purpose cleaner

PRODUCT DESCRIPTION

NPP is an alkaline product specially designed for micro-cleaning and active degreasing of metal or plastic parts and surfaces.

NPP contains a corrosion inhibitor that prevents oxidation on the most sensitive metals such as iron, aluminum, and uncoated steels.

NPP maintains its performance in hard water and prevents limescale build-up on surfaces thanks to its anti-scale additives. Immediate rinsing is necessary on glass surfaces.

A wide range of cleaners is available at ABchimie, including both slow and fast-drying cleaning solvents and water-based cleaning products.

FEATURES

- Efficient to remove and dissolve oils, greases, sludge.
- Cleaning and degreasing of sub-assemblies without damaging the substrates present.

INSTRUCTIONS FOR USE

In an ultrasonic bath, wiping, spraying, or in a high-pressure machine.

Cold water: dilution: 5 to 15%.

Hot water: dilution: 2 to 10%.

Rinse with cold or hot water and dry.

PROPERTIES

Aspect	liquid
Colour	yellow
Odour	eucalyptus
Specific Gravity @ 20°C:	1.04 +/- 0.02
pH:	13+/-0.5

PACKAGING

30 Litre Bulk
